

Commercial Unit

CSM250 - CSM3000

Available with non-reversing or reversing cells, producing from 250 to 3000 grams per hour

Efficient Switch Mode Power Supplies

Liquid cooled power supplies using heat exchanger technology

High-Quality lubrication free Pentair 2-way valves with the option for full automation

Completely new custom cell desing using up to 1 meter long cell chambers

Proven cell configuration incorporating the very best available DS-MMO electrode material which is manufactured in the USA

Custom desing and fabrication to suite your installation Built-in

acid Wash System to increase cell life

Salinity Range 3,000 - 36,000 mg/L

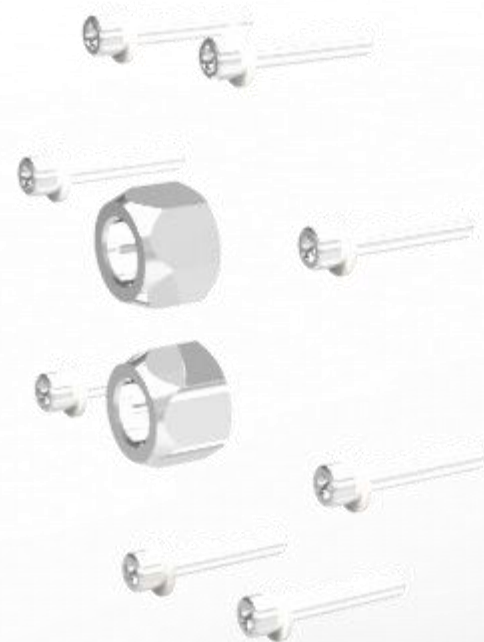

Valves with the option
for full automation

Commercial 250g Cell

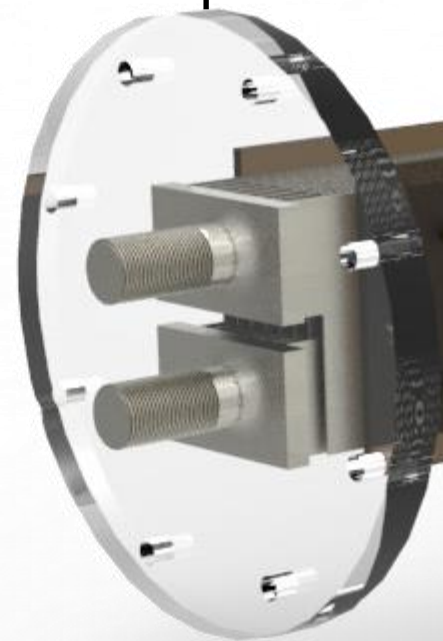

Semi-Automated Acid Wash
system for Calcium removal

Magnetic Acid Pump

Stainless steel
fasteners

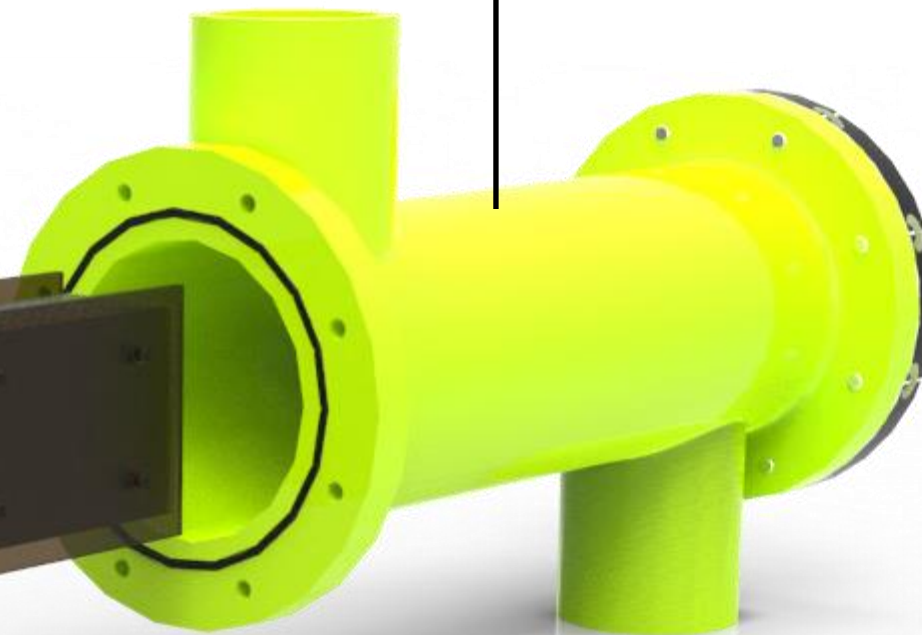

Clear end for
inspection

DS-MMO Electrode material
up to 1.6mm thick.

Heavy duty
housing

Unit 4 Laguna Seca
Ballito
South Africa
